New Book – Edited by Ohio State Law Professor

Ohio State law professor Cinnamon Carlarne, who studies international environmental law and global environmental governance, has recently turned her attention to exploring the relationship between the oceans and human well-being. Carlarne and an international, interdisciplinary team of colleagues have edited Oceans and Human Health: Implications for Society and Well-Being, a new book out this month from Wiley Blackwell. The editorial team also includes a medical doctor, a political scientist and an ecotoxicologist, and the book itself features a foreword by Intergovernmental Panel on Climate Change Chairman R. K. Pachauri. Learn more: <http://esn.osu.edu/news/nano-global-two-new-books-water>

Data-Intensive Analysis and/or Modeling for Socio-Environmental Synthesis Deadline: Aug 04, 2014

The **National Socio-Environmental Synthesis Center (SESYNC)** invites proposals for data-intensive analysis and/or modeling projects that advance socio-environmental synthesis research. This funding opportunity covers two types of projects: (1) The pursuit of novel, question-driven, and synthetic research into linkages between social and environmental system dynamics that would not be otherwise possible without the use of computationally-intensive data analysis and/or modeling; OR (2) The development of advanced data analysis and/or modeling tools that enable cutting-edge socio-environmental synthesis research. Learn more [here](#).
